Material do teto
2 metalão 50x30= 3080mm
2 metalão 50x30= 1600mm
3 metalão 50x30= 1540mm

material da base
2 metalão 50x30= 3000mm
2 metalão 50x30= 1500mm
5 metalão 50x30= 1440mm
10 chapa 1/8 de 100x100mm
20 parafuso 5/8 de 80mm

Materiais para fabricação do container:

OBS. Está fora as chapas, você pode usar chapa 0.9mm ou telhas de barracão parafusadas.

Material da base

2 metalões 50x30= 3000mm

2 metalões 50x30= 1500mm

5 metalões 50x30= 1440mm

15 tudo de 1" x 20cm

10 chapas 1/8 de 100x100mm

20 parafusos 5/8 de 80mm

Material do Lado menor

5 metalões 50x30= 2000mm

2 metalões 50x30= 3000mm

Material do Lado maior

5 metalões 50x30= 2200mm

2 metalões 50x30= 3000mm

Material do teto

2 metalões 50x30= 3080mm

2 metalões 50x30= 1600mm

3 metalões 50x30= 1540mm

Todo este metalon é espessura 1,20.
